Components of a Successful Modern Demand Gen Engine #1

How to Get Your Engine Started

Building a strong ICP (Ideal Customer Profile) and re-evaluating your core capabilities will help you establish a strong foundation for improving results.

The modern demand gen engine starts with a strong Ideal Customer Profile (ICP)

- **68%** Organizations that have developed a strong ICP average a **68%** higher account win rate¹
- **81%** of top-performing organizations are confident that their ICP represents their ideal accounts¹

Pro Tip: Identify who will get the most value from what you sell and is likely to recognize the value you offer. Begin by assembling necessary firmographics & technographics that clearly identify accounts you can serve. Include specifics on functions and roles that buying decisions depend on. To activate your program, add in behavioral elements such as purchase intent data for maximum revenue performance.

Audit Your Existing Demand Gen Efforts – Look for Gaps and Opportunities to Improve

4 critical demand gen capabilities you need to assess to drive pipeline impact

1. Data integrity
2. ICP coverage
3. Content mapping
4. Content engagement

Demand Gen Marketers Beware: On average, 25% of B2B databases are inaccurate²

Pro tip: Establish a Data Integrity Baseline Improving performance depends on improved data quality. Measure average integrity rate across a set of meaningful data indicators: consider factors like market and solution maturity together with the specific objectives of each marketing tactic.
