

Activity Matters

Better Response = Recency + Relevance

Achieve as much as 12x increase in email response rates targeting active prospects

TechTarget's recent test of over 6.5 million content marketing emails shows that you achieve peak email performance when you target prospects who have been:

- **Recently researching** solutions in your market
- With a message that's **highly aligned** to their specific technology needs

See why Priority Engine's active prospects continue to outperform traditional cold contact lists. Visit techtarget.com/priorityengine.
