Priority Engine™ is the fastest path to the deal
Find real technology buyers when they’re ready to buy

TechTarget’s Priority Engine is the only solution that can identify, prioritize and engage the real people at your target accounts when they’re researching solutions like yours.

Delivering the industry’s most actionable sales intelligence, Priority Engine captures relevant buyer behavior and uncovers the insights your sellers need to generate more opportunities and close them faster.

<table>
<thead>
<tr>
<th>Conventional Sales Solutions</th>
<th>The TechTarget Difference</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Contact Providers</strong> can give you contact details for employees at your target accounts, but they <strong>don't know</strong> who is looking to buy your products.</td>
<td><strong>TechTarget knows</strong> the exact people at your target accounts who are researching solutions like yours – right now.</td>
</tr>
<tr>
<td><strong>Intent Providers</strong> can tell you the accounts researching relevant technology on the websites they’re scraping, but they <strong>don't know</strong> who is doing the research.</td>
<td><strong>TechTarget knows</strong> the accounts and the REAL people displaying relevant purchase intent in your technology market segment.</td>
</tr>
<tr>
<td><strong>Social Networks</strong> can give you insight into a prospect’s personal interests and career goals, but <strong>don't know</strong> their tech challenges or planned investments.</td>
<td><strong>TechTarget knows</strong> the prospect's tech interests, upcoming projects, and competitive research to help inform call prep and personalize outreach.</td>
</tr>

““What sets Priority Engine apart from other tools? The insights from the leads and Active Prospects.””

—Monica Fairbanks, Sales Development Manager, Unitrends
Key Features & Benefits

Take the guesswork out of prospecting
Priority Engine connects you to the key members of the buying team and prioritizes them based on their level of relevant research activity. All TechTarget prospects opt-in to receive communication from our vendor partners and are GDPR/CASL/CCPA compliant.

Accurate and actionable contact data
TechTarget prospects must pass rigorous data qualification tests before they’re added to Priority Engine. All phone numbers, email addresses and job titles are validated and continuously cleansed to ensure contact data is accurate and up-to-date.

Focus on the accounts and people that matter
Priority Engine ranks the accounts and people in your territory based on the level of relevant research activity on the TechTarget network—and with you, including if they’ve visited your website, downloaded your content or clicked on your banners.

Prospect-Level Intent™ insights make real personalization possible
Priority Engine allows sales to have more meaningful conversations with prospects by providing insights that are proven to generate meetings, including their personal tech challenges and pain points, if they’re downloading content from your competitors and the solutions they already have installed.

Flexible fit within your systems and workflow
Priority Engine contacts and insights can be accessed in-tool, within your CRM and in sales engagement platforms. Direct Salesforce integration automatically syncs Salesforce Account Views to Priority Engine, displays relevant account and prospect insights on all account, lead and contact pages and gives sellers the ability to add hot prospects to Salesforce with one click.

Helping you succeed from day one
Value-added consulting services help with onboarding, implementation and ongoing sales training to ensure your team is getting the most out of your Priority Engine investment.

To learn more, email us at techtarget.com/priority-engine or contact your TechTarget sales representative today.
